Captain Elaine Morales  
Central Division  
Los Angeles Police Department

**RE: USE OF LAPD RESERVE OFFICERS FOR FOOT-PATROLS**

Dear Captain Morales:

In FY 19-20 the Los Angeles Police Department, with the assistance of the City Council, allocated fiscal and departmental resources to fund foot-beat officers in residential and commercial areas in the core of Downtown for over-time hours. Due to budget constraints and pandemic-related staffing reductions, these departmental resources have not been reallocated.

With the onset of the pandemic, the City of Los Angeles has seen a dramatic rise in both violent and petty crimes that have hurt the most vulnerable, especially Downtown stakeholders. As business and recreational activities return to Downtown Los Angeles in full force, the challenges that come with being a major urban center also become ever more present.

As such, with the pedestrian-centric nature of our community, DTLA experienced that foot-patrols offer the most effective persistent visibility for crime deterrence, while providing a sense of community engagement that is missing from motorized patrols.

DLANC recognizes that current staffing and financial resources may not be optimal at the division level to assign officers by basic car area to foot-patrol beats. However, as seen in LAPD's West Bureau, LAPD Reserve Officers have been utilized to provide foot-patrol in various locations across Council Districts 4, 5, and 11, especially along the Hollywood Walk-of-Fame and Venice Boardwalk.

The deployment of LAPD Reserve Officers has been highly received as these officers provide financial relief due to their volunteerism, but also provide an invaluable community engagement component that serves as the basis of a more enhanced model of community-policing.

Therefore, the Downtown Los Angeles Neighborhood Council would like to request that LAPD deploy a fixed allotment of reserve officers to Central Division for the purposes of providing foot-patrol in the high-traffic residential and commercial corridors across all neighborhoods within Downtown.

Given the nature that these officers are volunteers, we recognize that their service and deployment may not be consistent. As such, any deployment modal whether it be deploying Reserves for a few hours or per week or during high traffic hours such as weekends would be greatly beneficial. These deployment area should be derived from from COMPSTAT in areas over-burdened with crime or areas deemed to be at-risk

We appreciate the continued help and support between DLANC and LAPD Central Division, and look forward to working with you and our community partners in creating a safer and stronger Downtown.
