RE: Request for a Traffic Study at 9th / Flower

Dear Tina,

It's been brought to the attention of the Downtown Los Angeles Neighborhood Council (DLANC) that the intersection of 9th / Flower poses a safety hazard for pedestrians and cyclists when crossing north / southbound on 9th Street.

Specifically, the complaints are about the dangers of cars turning left without concern/awareness of pedestrians/cyclists that are crossing the eastern side of 9th Street when the S/B light on Flower St is green.

Therefore, we would like to request that LADOT conduct a traffic study at the intersection of 9th / Flower and investigate the implementation of phased signal prioritization for pedestrians for that intersection. Thank you and please let us know if you need any additional information on this matter.

Sincerely,

Richard Nordin
President,
DLANC

Debby Zhou,
Chair,
DLANC Livability Committee
